God never sleeps!

In my opinion, one of the most dangerous aspects of flying is the landing. As the aircraft gets closer to land, I hold my breath as the plane bounces on the runway hoping and praying the plane comes to a safe stop. Also the airplane traffic seems to be more congested, as planes are landing and taking off at a record pace, so it seems. So pilots rely on the air-traffic controllers to coordinate all the details so that every plane can arrive without incident. Without the controllers, chaos would be certain.

Imagine if the pilot radioed the tower and got no answer. It was discovered the controller was sound asleep. I am sure there would be panic among the pilots putting themselves, the passengers and the plane in great jeopardy!!

The Good News is that God, the ultimate traffic controller in our lives, never sleeps. From God's vantage point, He knows all that is going on in and around our lives. You can count on God who knows the impending dangers and will tirelessly direct the traffic of our lives for our good and His glory. All we have to do is listen and pray. Our God is in control because He never sleeps, so we can be at peace!!

**Together through prayer and service,
Deacon Mike**
